

Govind Parameswaran

Country of Origin: India

*Degree: M.S., Manufacturing Systems
Engineering*

Graduation Date: August 2015

Employer: Yanfeng Global Automotive Interiors

Position: Advanced Quality Engineer

What do you do in your current position?

I do advanced quality planning for manufacturing of various automotive interior products. This includes planning for prototypes, building gages, and performing statistical analysis.

How did you find your position?

I did an internship during the summer of 2014, and after I was offered a full time position in the same company.

Which career services did you find helpful at UW-Madison?

Engineering Career Services (ECS).

Other than your degree, what skills or experience made you competitive in the US job market?

I worked for 2 years in India in a similar position. I also did another internship in the USA. Both of those experiences have helped me immensely.

“Cover letters should be short and sweet. A verbose cover letter will not be read.”

What advice do you have for current international students?

Do a lot of networking. Get in touch with recruiters and also with any alumni working in various companies. Internal references count for a lot so make use of any contact you have within a company. Cover letters should be short and sweet. A verbose cover letter will not be read. Resumes should be no more than 2 pages and should have all important key words that are used in your respective field.
