The room where the event is held have elevators and wide hallways that provide accessibility for attendees who require accommodations. However, we will also put on our posters and advertisements that if an individual needs extra accommodation, they can contact us before the event to plan accordingly. In terms of sign language, if any of the audience of the event requires an interpreter, we would gladly provide them with the requested facility.

You will be asked to include an accessibility tagline on all publicity for the event so that students who would like to request accommodation can do so with advance notice. For assistance writing an accessibility tagline for your event publicity, please see the document Accessibility Taglines for Events at the following page of the McBurney Disability Resource Center's website: https://mcburney.wisc.edu/resources/accessibility-taglines-for-events/ Please write down your accommodation statement that will appear on your promotional materials

If you need an accommodation to attend this event or have special dietary needs, please contact Bucky XXXXX at XXX-XXX-XXXX or xxxxxxxx@wisc.edu.
Planning Process Details

Please describe your event. What will it consist of? What are your goals? Why are you holding this event? Word count: 200 - 300

This is a collaboration event between the Asian American Student Union (AASU) and the Equity and Inclusion Committee of the Associated Students of Madison (ASM). The topic of building bridges between Asian American and International Asian Student arises from the realization that there is a growing separation between the two communities here at UW-Madison. In an effort to bring these two communities together, AASU and the Equity and Inclusion Committee of ASM facilitate an open environment that prompts people to connect and share traditions that leads to long-lasting friendships and a more unified community.

How will this event benefit and/or allow for the full inclusion of international students? Word count: 200 - 300

The main goal of this event is to facilitate an informal environment that builds and breaks barriers between International Students & Asian Americans. Specifically, the format of this event is Speed Friending or Speed Networking, which provides a platform for students to share their personal story and learn from one another.

What is your marketing plan? How do you plan on publicizing this event to achieve your attendance goals? (Example: social media, campus newspaper, poster, flyer, chalking, etc.) Please note that ISS offers free advertisement through the weekly and bi-monthly email newsletter. Please contact iss.comm@studentlife.wisc.edu for more information. Write down your marketing timeline, starting at least two weeks before your event. Word count: 200 - 300

Both Associated Student of Madison (ASM) and Asian American Student Union (AASU) will hand out flyers of the event during MSC (Multicultural Student Center) WayUP Organization Fair (on September 5), and Student Organization Fair (on September 12 and 13). On September 25, a
Facebook event page will be created, inviting all possible participants through it. During this time, ASM and AASU will reach out to different student organizations on campus that might be interested in this event. Some organizations include, Vietnamese Student Association (VSA), Filipino American Student Organization (FASO), Chinese American Student Association, International Student Services, Wisconsin International Students Association, and Indonesian Student Association. In addition, reach out to International Student Services (ISS) with the possibility of promoting the event on their monthly newsletter. Furthermore, we will send in the event banner to Multicultural Student Center (MSC) to promote event on their monthly Facebook event page. On September 29, posters would be placed in different buildings on campus. Specifically, in buildings like Van Hise Hall, Van Vleck Hall, Ingraham Hall, and Grainger Hall. One week before the event on October 2, ASM and AASU will promote the event on social media platforms like Facebook, Instagram, and Snapchat.

How will your event achieve at least one of the following two Global Badger Experience Grant Objectives?

Objective 1) Global Engagement and Cultural Understanding. Applicants must demonstrate educational components with clear learning goals, and with the aim of expanding attendees’ cultural knowledge, introducing new perspectives, and/or fostering intercultural dialogue. Examples of ways RSOs can meet this criterion include: presentations, performances and/or demonstrations with explanation as to the activity’s cultural significance, introducing attendees to culturally relevant cuisine with explanation of ingredients and cultural significance, film screenings, intercultural discussions, workshops, and more. Events without clear learning components will not be considered.

Objective 2) Development of International Community. The event aims to establish cross-cultural connections among students of various backgrounds through a variety of educational programs, for example, workshops, discussions, and community-building activities. Applicants must indicate concrete strategies for guided interactions and provide detailed descriptions of: How a GBE Grant-funded event will actively engage multicultural students in building an international community and creating a more inclusive campus. How the event supports multidirectional intercultural learning. The focus must be on the exchange of information and multidirectional learning. How the funded event will encourage this learning and interpersonal interaction to continue after the event is over. The presence of students from different ethnic, national, and/or cultural backgrounds at an event in and of itself does not constitute a focus on international community development. Examples include: Navigating cross-cultural discussions, facilitating icebreaker activities that allow students from different backgrounds to meet each other, intentionally creating diverse teams of students to participate in games or athletic events, etc. The GBE Grant Review Committee will look for a thoughtful explanation for how requested funds would be used to address the above-listed points, and encourages RSOs to collaborate with each other. Word count: 300 - 400

The objective of this event is to build a network system between the international community
and domestic students. In order to achieve this goal, AASU and ASM facilitate an interactive event through speed-networking. Just like any other speed-networking, students will gather together in exchange of personal hobbies, experiences, and/or opinions. International Asian Students will be paired with Asian Americans in the speed-networking process. Specifically, the Asian Americans students will form a line, while the international students form another line facing the first line. During the interaction, participants will be given approx. 1-3 minutes (dependent on the question/prompt asked) to share about personal backgrounds, and/or respond to prompts/questions given by facilitator. Once the given time is over, they will switch partners and talk about the next question/prompt. At the start of each questions, people will introduce themselves by saying their name, year, and major. The questions will be prepared before the event and presented via presentation slides. Some questions include but not limited to: What is your favorite food to eat? What is the toughest thing you have to experience due to your ethnicity? How important is culture to you? What is your current favorite song and what was your favorite song in middle school? What is your biggest pet peeve and why?? What was your first job? If you don’t have one what would you want your first job to be? What is the most ridiculous thing your parents ever done to embarrass you? What’s something about you that most people would be surprised to know? If you had time, what Netflix show or any show at all would you binge watch right now? Take out your phone and show the person across from you your most recent PG photo and explain what it is. Through this kind of format, students are exposed to 2 possible organizations on campus that they can get involved in. The funding for this event will be used to buy bubble tea ingredients - the signature of AASU's Bubble Tea Tuesday. The bubble tea is used to further create an informal environment for the event. The reason why we are aim to facilitate an informal environment is because we believe it would allow students to feel more comfortable to exchange information and get to know one another. Ultimately, we seek to make an environment where students can build friendships that would allow us to meet the objective of uniting the divided: international and domestic students.

DOWNLOAD FILE

Have you already applied for an ASM Event Grant for this event?

No
If you answered Yes above, please upload your ASM Event Grant submission for this event

n/a

Has your organization received an ASM Event Grant for any OTHER events this semester?

No

If you answered Yes above, please upload your ASM Event Grant submission for that specific event

n/a

Are you requesting the same amounts of money for the same items from ASM?

No. I am only applying for food, which cannot be funded by ASM.

Are you asking for the Global Badger Experience Grant for additional funding over an ASM funding limit? (For example: You are bringing in several performers for a large event. You are not able to pay their honoraria with ASM funds alone, because you have reached the cap set by ASM. Therefore, you need additional funding from the Global Badger Experience Grant to cover all expenses.)

No

What is your total budget for this event? (Total amounts from all funding sources).

104

If you will receive funding from any other sources in addition to the Global Badger Experience Grant, please
list: Source of funding (Grant, RSO, Department, etc.) Amount from that source Status (approved, denied, pending) If you are on the waitlist for an ASM Event Grant, please also list the items you applied for in your response. For example: Cultural Event Collaboration Grant (WUD Global Connections, $450, Approved)

This event is not receiving any other funding.

Are you requesting funding to pay for transportation, lodging, honorarium, or services for a performer, speaker, entertainer, or trainer?

No

How does your group intend to remain fiscally responsible with this event? What measures are you taking to keep costs reasonable for this event? Word count: 200 - 300

In the past years, AASU have done a similar event like Bubble Tea Tuesday; creating a platform for discussion accompanied by bubble teas. Thus, we are well aware on the common market price for the things we are requesting funding for (tapioca pearls, cups, and milk tea mixes). That being said, we will strictly follow the budget request that we initially proposed to ISS Global Badger Grant committee, as it truly reflects the amount of funding we need for our event. If needed, we will also do a market comparison price with other vendors that we don’t ended up choosing, to prove that we are choosing the most reasonable option and is fully responsible for our expenditure. If we ended up spending more than what we initially proposed for, we will create a write-up that explains our reason for increased expenditure and how we have put most effort to be fiscally responsible.
